\*\*This post contains affiliate links and I will be compensated if you make a purchase after clicking on my links. Thank you in advance for supporting the group.

**This group IS NOT sponsored by Cricut.** I am an affiliate. I am not paid to make any videos. If you don't use the links marked [#ad](#) there is nothing to support me running the group. This is my only job. When you shop my links or support me on Patreon and/or Ko-fi you are giving back for the time & effort put into building the group and running it, as

well as the inspiration, files and learning of new skills the group and myself offer you for free. My opinions on products are my own. I purchase ALL of my products out of pocket. Your support helps with this costs so I can teach you what to do and what not to do before you invest into it.

**No companies pay me to promote** them, I promote good products and sites that I have actually tried, tested and use often and I believe and trust in them. If I receive freebies I will disclose this to you and my opinions will still be my own. My Affiliate links will never cost you anything extra & can often save you money! I earn a small commission ONLY if you make a purchase after clicking those links. (some links are broken by mobile use and I earn nothing in this instance).

**Please consider monthly support for 5.00 and get access to all of my design space files - I do use Cricut Access but you can change out some elements on most projects. I also have some svgs and that is growing.**

**For Monthly support you get access to all files & get project or news emails support on Patreon <https://www.patreon.com/craftingwithapril> if you chose to do an annual subscription you will save 10% .**

### **1- CRICUT RELATED - All posts should be Cricut related.**

- We are here to help you with your Cricut machine & EasyPress, Your projects, supplies and my affiliate links for purchase. We are here to teach you how to use Design Space and your machine.
- Here is a **topic example** of **WHAT NOT TO NOT ASK** - "Where do I get a sublimation printer and can I use any printer for sublimation ink?" This has nothing to do with Cricut or Design Space or your Print then cut function. Something like this should be asked in a sublimation group, thats what it is about. While we like to help this group want so remain on track as a Cricut group. Asking "will my Cricut cut sublimation paper with print then cut?" Yes, your Cricut can cut sublimation paper. That is a Cricut question.
- What printer, heat press, computer or device should I get etc. All of these are answered in the group resource guide. System requirements [#ad](http://shrs1.com/10vow) & Feature comparison <https://help.cricut.com/hc/en-us/articles/360009386114-Design-Space-Features-Comparison>

## **9-NO SHARING OF FREE, OR PURCHASED FILES, FONTS, or PHOTOS**

- Facebook can detect with algorithms etc., copyrighted material. They changed the terms of service. I will not risk losing my group so you can get a free SVG instead of buying or creating it on your own. We will not promote where to buy illegal SVG's like Disney on Etsy or any other place or platform, if they have it chances are they are selling illegally.

- Don't ask for anyone to alter, make or share any copyright or trademark image or font or skirt this rule via private messages.
- Please don't ask someone to make an SVG for you. Our group is about teaching you how to use your Cricut, Design Space and various software/apps so you can do this on your own. We do understand the occasionally you need something immediately during a grief period and need help with a personal photo during those times. This is ok. However, should someone assist you they are not to accept or expect any compensation it should be from the heart. If they try to sell it to you move on to someone who is not selling and breaking the group rules.
- Don't share photos from this group they don't belong to you!
- **ABSOLUTELY NO DROP BOX LINKS ETC.** even free file sharing is illegal without the designer's permission.

Ranting posts about the issue are not allowed. Simply state or show the issue. You need to be willing to accept help during the frustrating issues. If we can't help we will ask that you call support.
