

watercolor guide

Use this watercolor guide to replicate Close To My Heart's exclusive color palette with our watercolor paints (Z3132). Below each color swatch you will see a set of numbers, which indicate which paints to use, and how much of each is needed. The number tells you which paint to use with numbers 1-36, which correspond with paints on our paint palette (number 1 in the top left corner; numbering continues left to right, top to bottom).

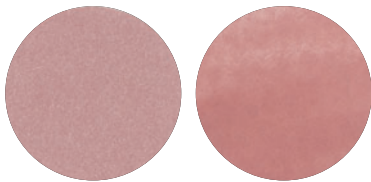

When a number is listed more than once, it means that more of that paint is used compared to the other colors in the mix. For example, Sugarplum shown below is made up of three parts paint 11, one part paint 16, and one part paint 35.
